

KLOVE is the only listener supported Christian radio station in my listening area. My 11 year old daughter and I listen to KLOVE because of the positive messages in the music and the commentary. If you displace this station with an LPFM broadcaster, this positive influence on the young people and adults in our community will be gone. The other radio stations talk about and play music that promotes ideas and issues contrary to my religious faith. Listening to positive music on the way to work and school sets the tone for the day. Negative comments and music likewise set a very different tone. I am a financial supporter of KLOVE because I believe it is of vital importance to my community. People of all religions or no religion can relate to positive topics presented by KLOVE.
